

CTA Cementitious Tile Adhesive

Product Description :

MYMIX - CTA is a Cementitious thin-set tile adhesive for floor applications. It has excellent bond to concrete & screed surfaces. It has non-shrink, self-curing properties. Specially made for tile on tile, interior flooring of ceramic tiles, vitrified tiles & all natural stones

Application :

- Specially for floors
- Small and medium size tiles fixing
- For Internal use

**FOR BETTER APPLICATION
USE A NOTCH TROWEL OF
APPROPRIATE NOTCH SIZE**

Advantages :

- Ready to use, needs no curing
- Suitable for tile on tile applications
- Excellent waterproofing characteristic
- Can accommodate thermal & physical movements
- Excellent adhesion, low shrinkage

Suitable Substrates :

- PCC
- IPS
- Concrete (RCC) surface
- Screed surfaces

How to apply :

- Add 25 kg of "**MYMIX - CTA**" (Cementitious Tile Adhesive) to approx. 6.5 to 7.5 litre of cool and clean tap water
- Stir properly for 5 minutes by hand or an electric stirrer to get a smooth and homogeneous mixture
- After stirring wait for 10 minutes, stir once again
- Now apply the adhesive on the subfloor with the recommended adhesive notch trowel
- Check properly to ensure that the back of the tile is in full contact with the adhesive
- Remove excess adhesive immediately from the joints

Technical Details : (As per IS 15477 & ANSI 118.1)

Sr. No.	Testing Parameter	Specification
1	CTA - Mixing Ratio	6.5 to 7.5 litre water for 25 kg material approx 25-30% by weight
2	Product Colour	Grey
3	Workability	Easy mixing and self curing
4	Application	Easy spreading
5	Open time @ 23-27°C	30 - 45 minutes
6	Pot Life	3 -4 hours
7	Setting time	24 hours
8	Trafficable Time	24 hours

Coverage :

- At 3 mm bed thickness 65-75 sq. ft./ per 25 kg bag.

Storage :

- Store in a cool & dry place. Protect from direct sunlight.

Colour :

- Grey

Packing Detail :

- Available in 25 kg bag
- Available in 40 kg bag Project pack on demand

Shelf Life :

- 12 months from the date of manufacturing in unopen condition
