

STARPROOF WF MB 602 Rubberized Elastomeric Waterproof Coating

It is cold applied liquid waterproofing membrane, specially designed from a blend of special resin and rubber, reinforced with special water repelling fillers, minerals, stabilizers and gelling agent.

Features

- ❖ *Single Component , Cold Applied & Highly Elastic Rubber like Membrane*
- ❖ *Unique additives added to make it durable*
- ❖ *Superior wetting & adhesion properties*
- ❖ *Adapts itself over the irregular deck contours*

Benefits

- ❖ *Withstands expansion/contraction & deck movements. Resists crack.*
- ❖ *Requires no mixing or heating, saves labor costs*
- ❖ *Highly resistant to oxidation, UV & ozone*
- ❖ *Ensures durable bond & resists peeling, chipping, hence lasts longer*
- ❖ *Forms a impervious & waterproof blanket*

USES: Ideal for waterproofing Concrete roofs / polyurethane foam slabs /polyester built up roofs / Maintenance of existing roofs, masonry and concrete walls / Bathrooms / Basements /Bridges / Decks / Metal surfaces etc. Popularly used as a sandwich membrane in new construction and as surface treatment on existing slabs.
